TAM COOL (pty) Ltd

COMPANY

PROFILE

Mission

To grow and be the preferred service provider in the field of total facilities management, a one stop shop for maintenance.

Executive Summary

Tam Cool was established in 2020 with aspirations of excellence, innovation and transparency that is the prominent factor that distinguishes the company in the market place. Upholding this vision along with a complement of high skilled technical and administrative staff is the cause Tam Cool stands strong today.

We aim at creating circumstances where our team members are empowered and consequently able to take control of our core beliefs and values which in turn will impact our overall performance and delivery of service.

Always striving to deliver best solutions, we look to form partnerships and joint ventures with entities sharing strong values, integrity and that aspire to excel.

Bringing people & nature together

At Tam Cool, we partner with you to ensure your environmental maintenance, health and safety of your employees, customers and facilities are our priority. We choose products and services that have positive impact on the environment and incorporate environmental consideration in our decision making process in addition to price, quality and safety.

Our “Green” objective

1. To identify and correct non-conformities by taking action to mitigate your environmental impacts.
2. To determine the cause of non-conformities and take action to avoid their recurrence.
3. Ensure that health and safety standards are maintained and adhere to by all.
